

## VPC Environmental Policy Statement

VPC is committed to minimizing environmental impacts, conserving natural resources and providing effective stewardship of the environment. We strive to improve our environmental performance over time and to initiate additional projects and activities that will further reduce our influence on the environment.

Our commitment to the environment extends to our customers, our staff, and the community in which we operate. We are committed to:

- Complying with all applicable environmental regulations; including but not limited to CEPA and CBAM
- Preventing pollution whenever possible;
- Training all of our staff on our environmental program and empowering them to contribute and participate; and
- Communicating our environmental commitment efforts to our customers, staff, and our community.

VPC will foster environmental awareness and understanding in all employees, suppliers, customers, and subcontractors. Where practical, we will provide information and assistance to customers on environmental issues arising from its products and services.

Sandy Stowers
