Statement Regarding COVID19 (Coronavirus)

Virginia Panel Corporation (VPC) is aware of and monitoring the health concerns regarding this virus. Currently, there are several precautions we are taking with the safety of our customers, employees and suppliers in mind.

Travel

- We are asking everyone to avoid all non-essential travel. At minimum, we are postponing or moving to virtual meetings as much as possible.

Visitors

- For all visitors to VPC we will be asking them to confirm that they have not traveled to a high risk country in the last 14 days and that they are feeling in good health. If you have any planned visits, please be aware of this updated policy.
- As a general rule, where feasible we will be looking to convert meetings with suppliers to virtual meetings if in-person discussions are not required.

At this time, all orders are continuing to be fulfilled as contracted or requested. We will continue to keep you up-to-date on any changes to the situation as it pertains to VPC.
